FEATURES & BENEFITS

• Dura-Tech™

- Alaskan Yellow Cypress, rot resistant
- Dura-Tech offers the strength & rigidity of wood with the low maintenance attributes of PVC components.

• All doors have steel reinforcement plates

- For additional security

• Ball Bearing Hinges

- More durable, better performing and less noisy than standard hinges.

• Composite Adjustable Sill

- These technologically advanced sills are made up of all-composite substrates, synthetic caps and nosing.

• All doors are double bore standard

- Adds protection and security

• Pre-finished doors are paintable

- Protected by UV resistant topcoats

• Permanent waterproof adhesive

- Lifetime rot resistant

These integrated materials prevent the sill from rotting, warping, or deteriorating over time.
